\$3.95 / lin.ft

TROPICAL HARDWOOD DECKING

INTRODUCING our range of Tropical Hardwood Decking, available by Special Order BATU, IPE and TIGERWOOD.

It used to be that Hardwoods were reserved for building furniture. Not any more. Tropical Hardwoods are diverse species from South America and Asia that are perfectly suited for the harsh realities of life outdoors. They are naturally resistant to decay and insects, much harder and stronger than woods more commonly used for decks and therefore last longer.

You'll also be happy to know that as with our Cedar products - our Tropical Hardwoods are harvested using sustainable forestry guidelines.

Normally available within 1-2 weeks.

We also operate a Contractor rebate program (maximum rebate \$200).
